Experience

October 2025 - February 2026

Full Stack Developer (Contractor)

Orium

Canada (Remote)

- Architected and delivered a **Stripe integration** for Grupo Xcaret's **Salesforce platform**, enabling **secure, scalable payments**.
- Ensured **PCI compliance** and **data protection** through payment and security best practices.
- Built **prototypes** to validate flows and optimize **checkout experience**.
- Contributed to **solution architecture**, aligning with complex business requirements and **scalability**.

April 2025 - Current

Full Stack Engineer | Solutions Engineer

Freelancer

North America (Remote)

- Designed and shipped **Shopify apps** and **custom themes** for **US clients**, driving lead generation, digital presence, and e-commerce growth.
- Built **no-code CMS solutions** enabling non-technical teams to manage content independently.
- Owned the **full product lifecycle**: architecture, development, CI/CD, and production deployment.
- Built **Salsa World**, a **scalable event platform** with recurring event modeling and multilingual, CMS-driven content.

July 2024 - April 2025

Full Stack Developer

Gluo

Mexico (Remote)

- Delivered Galerías' **nationwide platform**, including **authentication** and **interactive maps**.
- Contributed to NordicTrack's **e-commerce redesign**, building dynamic components, theming, and CMS-driven pages.
- Automated product variant imports into CommerceTools via **custom data pipelines**.
- Ensured **code quality** through **code reviews**, **testing**, and **peer feedback**.

April 2023 - June 2024

Full Stack Developer

Blue People

Monterrey (Remote)

- Built a **serverless SaaS platform** for a logistics company.
