EXPERIENCE

Software Developer

Apr 2025 – Present

- Run an AI-augmented delivery workflow (Claude Code, Claude Design, Cursor, custom agents) to ship client work dramatically faster without sacrificing quality.
- Built custom Shopify themes and WordPress sites driving measurable e-commerce sales growth and lead capture for corporate clients.
- Rebuilt the complete UI of a test-automation platform (muuktest.com), improving usability and brand consistency.
- Delivered fully self-manageable websites so business owners update content without a developer — cutting maintenance costs and time-to-market.
- Building a nationwide multilingual events platform with Payload CMS and Next.js.

Orium

Oct 2025 – Feb 2026

Full Stack Developer

- Implemented secure digital payments with Stripe for Grupo Xcaret, Mexico's leading tourism company — PCI-compliant checkout flows at scale.
- Designed and prototyped high-fidelity UI to streamline the booking and purchase experience.

Gluo

Jul 2024 – Apr 2025

Full Stack Developer

- Built Galerías' (galerias.com) nationwide shopping-mall platform with user auth, interactive maps, and a fully customizable CMS.
- Redesigned NordicTrack's e-commerce site with dynamic components, light/dark themes, and CMS-integrated content.
- Automated product-variant imports into CommerceTools with custom data pipelines, eliminating hours of manual catalog work.
- Drove code quality through code reviews and unit tests for data transformation logic.

Blue People

Apr 2023 – Jun 2024

Full Stack Developer

- Led development of a serverless SaaS logistics platform on AWS, applying SOLID principles and architecture best practices.

- Built and shipped React Native apps (food ordering, event scheduling) to the App Store and Play Store, including push notifications and auth.
- Integrated AWS end to end: Cognito, Lambda, API Gateway, SNS, SES, S3, DynamoDB, and CloudFormation.

Enroute

Jan 2021 – Mar 2023

Full Stack Developer

- Collaborated on redesigning VMware's global validation system, improving query performance across large data-center datasets.
- Refactored a high-volume automated email system tied to complex business rules.
- Built institutional React Native apps for US clients and led front-end dashboard and charting improvements.

Helicon

May 2019 – Nov 2020

Full Stack Developer

- Automated a full packaging production line for Mexico's leading nationwide pharmacy chain — fewer manual errors, real-time monitoring.

Grupo 4S

Feb 2018 – Apr 2019

Web Master

- Built and maintained WordPress sites, cutting load times and lifting Google PageSpeed and SEO rankings company-wide.
